

Consentium — LAToken Launch Party

Hey everybody! Recently Consentium and LAToken hosted a launch party and it was a huge success!

Consentium X LAToken

Last week, we threw an exclusive party to celebrate the partnership of Consentium and [LAToken](#) at Origin Bar, Shangri-la Hotel.

Guests were welcomed with a sumptuous glass of fine champagne from Veuve Clicquot and a token (pun intended!) of appreciation from Consentium.

The launch party started off with a keynote presentation by Wayne Ng, Head of the China Market of Consentium, providing an overview of Consentium's revolutionary app that is now available on both [ANDROID](#) and [iOS](#).

This was followed by an app demo by Consentium's Senior Project Manager, Kristopher Heslop, displaying Consentium's breakthrough features that integrate both cryptocurrencies and chat app.

Kristopher Heslop, Senior Project Manager

Our VIPs for the night, Jeremy Khoo, Business Development Officer of Consentium, Roman Zhdanov, Managing Director of LAToken and Lev Umanov Partnerships Relations Manager of LAToken were invited on stage for the highlight of the party, the Launch Ceremony!

Representatives from both sides placed their logos on the photo wall to symbolize a fruitful union as everyone raised their glasses to the partnership.

As the ceremony drew to a close, a night of networking between leaders and influencers in the blockchain space followed, accompanied by drinks and canapés of course.

We are truly thrilled by this exciting collaboration and will be looking forward to the opportunities ahead!

Being the #1 exchange in liquidity for newly listed tokens, LAToken provides a simple, fast and secure way to exchange cryptocurrency. Click [HERE](#) to trade on LAToken now!
